

Product Manager

Do you want to be part of an ambitious and enthusiastic team in a fast-moving scale-up environment? Are you looking for a challenging context where you will get the chance to develop your talents? Are you eager to accelerate your career as a **Product Manager** in a fast-growing regtech company?

Well, let us introduce itsme® / Belgian Mobile ID, founded in 2017 with a clear mission: provide a state-of-the-art and best-in-class digital identity solution to individuals, enabling them to move all their interactions to the digital space. Now, only five years later, 6.4 million citizens use the itsme® app, to identify themselves, confirm transactions and sign documents online. We are also ready for a new challenge: launching the itsme® app in The Netherlands.

We are looking for a Product Manager whose mission will be to manage the life cycle and determine the product strategy of his product line(s). You play a connecting role between Sales and Operations as a point of contact for product strategy, technical product requirements and customer expectations.

What your job looks like

- Identify market needs
- Own vision, roadmap and program backlog within your product domain(s)
- Work closely with internal technology, operations teams and external partners to define milestones and ensure one-time and in-scope delivery
- Support the Agile Software Development process, working in conjunction with end users/stakeholders and technical delivery teams
- Research and analyze data and information about market developments, customer needs and product performance
- Work with the Chief Product Officer to create and fine-tune product roadmap(s)
- Represent the 'end-user' and ensure their needs are top of mind throughout development
- Emphasize business contribution for each project/program to justify prioritization and resource allocation
- Test new functionality, provide feedback and prioritize issues
- Track product performance against goals

What we are looking for

- A master's degree or equivalent experience
- Demonstrated (prefer 5+ years) ability in a product/program management role or similar management consulting experience
- You master the Scrum and Kanban methodology, and you understand the importance of Devops as a key enabler.
- Experience with environments where security and data privacy are of utmost importance.
- A strong and convincing communicator, you know how to deal with a multitude of stakeholders on different hierarchical levels both in-and outside itsme®.
- You take ownership of your projects and can act as a go-to-person
- You have an open and flexible mindset; you are able to easily adapt to changing contexts
- You are able to think strategically and maintain a helicopter view
- You are a team player who shares his/her knowledge and enjoys celebrating joint achievements
- You are service and client oriented
- You speak and write fluently English and has a good knowledge of French or Dutch

What we offer

- A fun, enthusiastic and ambitious team
- A fast-moving scale-up environment where you can develop and grow
- Offices in Brussels, combined with flexibility in terms of remote working
- A fixed contract, with an attractive compensation package

Now it's your turn!

If you have what it takes, send your CV and motivation letter to career@itsme-ID.com.
