

Agile Scrum Master

Do you want to be part of an ambitious and enthusiastic team in a fast-moving scale-up environment? Are you looking for a challenging context where you will get the chance to develop your talents? Are you eager to accelerate your career as a **Agile Scrum Master** in a fast-growing regtech company?

Well, let us introduce itsme® / Belgian Mobile ID, founded in 2017 with a clear mission: provide a state-of-the-art and best-in-class digital identity solution to individuals, enabling them to move all their interactions to the digital space. Now, only five years later, 6.4 million citizens use the itsme® app, to identify themselves, confirm transactions and sign documents online. We are also ready for a new challenge: launching the itsme® app in The Netherlands.

We are looking for an Agile Scrum Master whose mission will be to setup and facilitate all internal app developments, to align with external stakeholders in order to reach our common defined priorities.

What your job looks like

- Setup of new agile squad, responsible for the itsme® app developments
- You facilitate the different agile ceremonies (sprint planning, stand-up, retro, ...) of the squad
- You follow-up the resolution of the different risks and impediments of the squad
- You help the product owner in the definition of clear priorities and the refinement of user stories
- You foster continuous improvement and help the squad in the setup of their devops practices such as test automation, adoption of CI/CD pipelines, ...
- You organize scrum of scrums, aligning all internal and external stakeholders
- You help us accompanying other development teams in their trajectory to gradually implement a more agile way of working
- You help in the setup of the proper governance to support the overall agile delivery of the new app squad and its contributors
- You support the overall agile transformation of itsme®

What we are looking for

- You are an IT graduate or have at least 5 years of relevant experience in an IT work environment
- You master the Scrum and Kanban methodology, and you understand the importance of Devops as a key enabler.
- You have experience with environments where security and data privacy are of utmost importance.
- You have strong communication skills and able to grasp complex technical concepts and translate them to a non-technical audience.
- You show proactiveness and take ownership
- You have an open and flexible mindset; you are able to easily adapt to changing contexts
- You have demonstrated a 'Can do' attitude
- You like to look for solutions, share your knowledge and pro-actively come up with improvements or new ideas
- You are a team player who shares his/her knowledge and enjoys celebrating joint achievements
- You are service and client oriented
- You speak and write fluently English and has a good knowledge of French or Dutch.

What we offer

- A fun, enthusiastic and ambitious team
- A fast-moving scale-up environment where you can develop and grow
- Offices in Brussels, combined with flexibility in terms of remote working
- A fixed contract, with an attractive compensation package

Now it's your turn!

If you have what it takes, send your CV and motivation letter to career@itsme-ID.com.
