

Accountant who's up for a challenge

Do you want to be a driving force behind the company that is *innovating the way we handle digital identity*, in Belgium and throughout Europe? Would you like to be part of a *talented team* that is determined to make a *positive impact* on society? Then keep on reading, you'll probably like what you'll see.

We are itsme®, a true Scale-Up, currently counting 50 team members. Our mission: providing a state-of-the-art digital identity solution to all people, enabling them to move their interactions to the digital space. Now, only five years after being founded, *6.6 million citizens use the itsme® app*, to *identify* themselves, *confirm transactions* and *sign documents* online. Started in Belgium, we have recently launched the itsme® app in *The Netherlands* and soon we'll be active in *Luxembourg*.

As our Accountant you'll play a *critical role in keeping itsme® financially healthy*. You'll be responsible for all accounting activities within the company. This position is a real challenge you can sink your teeth into, and you'll get ample opportunities to take on more responsibilities as you grow in your job.

What your job looks like

- You carry out the *day-to-day accounting tasks* (Accounts Receivable, Accounts Payable, credit collection, reconciliation, ...). Moreover, you progressively *optimize and automate these processes* (e.g. migrating to new accounting software, automating invoicing & debt collection processes, ...). That way you'll move away from repetitive tasks, and you'll consistently get more high-level and complex responsibilities.
- You execute *month and quarter-end closes* and draw up itsme®'s *financial statements*.
- You are the main liaison for our *external Accountant* and ensure that the Accountant delivers what he has committed to.
- You support the People team in *compensation & benefits* topics.
- You report to, and work closely with the *Financial Manager* (who we'll hire in the near future) to support him/her in budgeting, reporting, financial analyses and financing.
- You'll also collaborate closely with Wouter, our *Chief Growth & Financial Officer* on the topics above.

Who we are looking for

- You perform on a *Master's degree level* and you have at least 2-4 years of experience in an accounting role.
- Ideally, you already have *solid and broad accounting expertise* (AR/AP, month & quarter closes, credit management, audit preparation, payroll, ...).
- You have a thorough knowledge of *BGAAP*, and ideally also of other international accounting frameworks.
- Of course, you know your way around the MS Office applications and accounting *software*.
- You can combine *hands-on*, efficient execution with taking a *helicopter view* to analyse and improve processes.
- You think that you are quite *ambitious? Great!* We're scaling fast, so we'll be able to offer you interesting career development opportunities in the coming years (international expansion, ...)
- You can work *autonomously* and you take *initiative* when you see opportunities.
- You *cooperate* constructively with others.
- You like to *set the bar high* and like to achieve your objectives.
- You are fluent in *Dutch or French* and have a working proficiency in *English*.

What we offer

- Being welcomed by an *informal, enthusiastic and ambitious team* that is *revolutionizing how we safely manage our digital identity*, in Belgium & beyond.
- Offices at walking distance from *Brussels Central Station* and the possibility to work *remotely 3 days a week*.
- Of course, a contract of indefinite duration, with an *attractive compensation package*.
- An environment where we care a lot about our *core values*:
 - *Integrity*: being fair, honest & transparent so that we can be trusted.
 - *Inclusiveness*: being an open environment in which all team members' opinions are taken into account.
 - *Innovation*: building future-proof solutions by finding new ideas and methods to solve problems.

Your turn now!

Sounds like something for you? Then we'd love to get to know you!

Send your *CV and motivation letter* to career@itsme-ID.com. We'll get back to you within a week.
