

## Finance Specialist who's up for a challenge

Do you want to be a driving force behind the company that is **innovating the way we handle digital identity**, in Belgium and throughout Europe? Would you like to be part of a **talented team** that is determined to make a **positive impact** on society? Then keep on reading, you'll probably like what you'll see.

We are itsme® **one of Europe's fastest growing tech scale-ups, counting 50 team members and growing**. Our mission: providing a state-of-the-art digital identity solution to all people, enabling them to move their interactions to the digital space. Now, only five years after being founded, **6.7 million citizens use the itsme app**, to **identify** themselves, **confirm transactions** and **sign documents** online. Started in Belgium, we have recently launched the itsme® app in **The Netherlands** and soon we'll be active in **Luxembourg**.

As our Finance Associate you'll play a **critical role in keeping itsme® financially healthy**. You'll be responsible for all accounting activities within the company. This position is a real challenge you can sink your teeth into, and you'll get ample opportunities to take on more responsibilities as you grow in your job.

### What your job looks like

- You carry out the **day-to-day accounting tasks** (Accounts Receivable, Accounts Payable, invoicing, credit collection, reconciliation, ...). Moreover, you help to progressively **optimize and automate these processes** (e.g. migrating to new accounting software, automating invoicing & debt collection processes, ...). That way you'll move away from repetitive tasks, and you'll consistently get more high-level and complex responsibilities.
- You execute **month and quarter end closes**, and draw up itsme's **financial statements**. You review financial performance and support in preparing forecasts and budget checks.
- You are the main liaison for our **external Accountant** and ensure that the Accountant delivers what he has committed to. You also liaise directly with the **financial auditor**.
- You support the People team in **compensation & benefits** topics.
- You report to, and work closely with the **Financial Manager** (who will join soon) to support him/her in budgeting, reporting, financial analyses and financing.
- You'll also collaborate closely with Wouter, our **Chief Growth & Financial Officer** on the topics above.

### Who we are looking for

- You perform on a **Master's degree level** and you have at least 2-4 years of experience in an accounting role or similar within the finance team.
- Ideally you already have a **solid and broad accounting expertise** (AR/AP, invoicing, month & quarter closes, credit management, audit preparation, payroll, ...).
- You have a thorough knowledge of **BGAAP**, and ideally also of other international accounting frameworks.
- Of course, you know your way around the MS Office applications and **software for accounting and financial reporting**.
- You can combine **hands-on, detail-oriented** and efficient execution with taking a **helicopter view** to analyse and improve processes.
- You think that you are quite **ambitious? Great!** We're scaling fast, so we'll be able to offer you interesting career development opportunities in the coming years (international expansion, ...)
- You can work **autonomously** and you take **initiative** when you see opportunities.
- You **cooperate** constructively with others.
- You like to **set the bar high** and like to achieve your objectives.
- You are fluent in **Dutch or French**, and have a working proficiency in **English**.

## What we offer

- Being welcomed by an **informal, enthusiastic and ambitious team** that is **revolutionizing how we safely manage our digital identity**, in Belgium & beyond.
- Offices at walking distance from **Brussels Central Station** and the possibility to work **remotely 3 days a week**.
- Of course a contract of indefinite duration, with an **attractive compensation package**.
- An environment where we care a lot about our **core values**:
  - **Integrity**: being fair, honest & transparent so that we can be trusted.
  - **Inclusiveness**: being an open environment in which all team members' opinions are taken into account.
  - **Innovation**: building future-proof solutions by finding new ideas and methods to solve problems.

## Your turn now!

Sounds like something for you? Then we'd love to get to know you!

Send your **CV and motivation letter** to [career@itsme-ID.com](mailto:career@itsme-ID.com). We'll get back to you within a week.
